

Question 9:

Uno Communications Inc. ("Uno") desires streamlined processing pursuant to Section 63.12 of the Commission's rules. Uno qualifies for streamlined processing because Uno is not affiliated with a foreign carrier in any destination market except Italy, and although Uno is affiliated with a foreign carrier in Italy, Uno still qualifies for streamlined processing under the exception set forth in Section 63.12(c)(1)(ii) because Uno's affiliate in Italy qualifies for a presumption of non-dominance under Section 63.10(a)(3) (see below). Furthermore, Uno does not have an affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell. And Uno does not seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.

Question 11:

Uno hereby certifies the following:

- 63.18(i) Uno is affiliated with Uno Communications SpA, a licensed telecommunications provider in Italy. Uno is not affiliated with any other foreign carriers.
- 63.18(j) The only destination country with respect to which any of the items in Section 63.18(j)(1)-(4) is true is Italy. Uno seeks to provide international telecommunications services to Italy, where its parent, Uno Communications SpA, is a licensed carrier. Uno Communications SpA wholly owns Uno, and therefore the following owners of Uno Communications SpA own more than 25% of Uno indirectly (see Attachment 2):
 - Carlo Capacci (68.95%)
- 63.18(k) Italy is a member of the WTO.
- 63.18(l) Uno may resell the international switched services of an unaffiliated U.S. carrier for the purpose of providing international telecommunications services to Italy, where its affiliate, Uno Communications SpA, is a licensed carrier. However, under Section 63.10(a)(3), Uno Communications SpA is not a dominant carrier because Uno Communications SpA has less than 50% of the market share in the international transport and local access markets. The gross revenues of Uno Communications SpA in the international

transport and local access markets for 2005, as compared to those markets in Italy in general (estimated), are as follows:

2005	<u>Uno Comm. SpA</u>	<u>Italian Market (est.)</u>	<u>%</u>
International transport	US\$8,685,693	US\$15,122,000,000	5.74%
Local access	US\$3,722,439	US\$21,178,000,000	1.76%

63.18(m) Uno seeks to be regulated as non-dominant for the provision of international telecommunications services to Italy. In support of Uno's assertion that Uno Communications SpA is non-dominant in Italy, Uno offers the following information under Section 63.10(a)(3):

The gross revenues of Uno Communications SpA in the international transport and local access markets for 2005, as compared to those markets in Italy in general (estimated), are as follows:

2005	<u>Uno Comm. SpA</u>	<u>Italian Market (est.)</u>	<u>%</u>
International transport	US\$8,685,693	US\$15,122,000,000	5.74%
Local access	US\$3,722,439	US\$21,178,000,000	1.76%

Accordingly, Uno should be regulated as non-dominant with respect to the U.S. – Italy route because its foreign carrier affiliate in Italy has less than 50% of the market for the international transport and local access telecommunications services in Italy.

Question 12:

The only destination country with respect to which any of the items in Section 63.18(j)(1)-(4) is true is Italy. Uno seeks to provide international telecommunications services to Italy, where its parent, Uno Communications SpA, is a licensed carrier. Uno Communications SpA wholly owns Uno, and therefore the following owners of Uno Communications SpA own more than 25% of Uno indirectly (see Attachment 2):

Carlo Capacci (68.95%)

Question 15:

(d) Uno has not received authority previously under Section 214 of the Communications Act.

- (e) Uno certifies that it will comply with the terms and conditions contained in sections 63.21, 63.22 and 63.23 of the Commission's rules.
- (f) At this time, Uno seeks no other authorization available under Section 63.18(e).
- (g) Not applicable.
